Executive Summary

Alaska statutes require the Alaska Judicial Council to evaluate Alaska judges eligible to stand for retention election. This survey was conducted among Alaska peace and probation officers to obtain information about their direct professional and other relevant experience with the judges, and their assessments of judicial performance. This 2022 survey included 29 trial court judges eligible for retention.

The Alaska Judicial Council asked peace and probation officers to evaluate judges on five characteristics: *Impartiality/Fairness, Integrity, Judicial Temperament, Diligence, and Overall*. The rating scale ranged from *Poor* (1) to *Excellent* (5).

Table 1 shows the mean ratings for each judge by respondents with direct professional experience on all five characteristics. Within each district, superior court judges appear first and are followed by district court judges.

Table 1
Mean Ratings of Judges

	<i>n</i>	Impartiality/ Fairness <i>M</i>	Integrity <i>M</i>	Judicial Temperament <i>M</i>	Diligence <i>M</i>	Overall <i>M</i>

Note: Ratings from only those respondents with direct professional experience with the judges.

2022 Judicial Retention Survey: Peace and Probation Officers

Introduction

Alaska statutes require that the Alaska Judicial Council (Council) evaluate judges standing for retention in an election year. The Council makes a recommendation to the State's voters to either retain or not retain each judge. As part of the information used to fulfill its mandate, the Council distributed surveys to Alaska peace and probation officers and asked them to rate judges on five characteristics: *Impartiality/Fairness, Integrity, Judicial Temperament, Diligence, and Overall*. Each survey also contained demographic questions about the respondents, including type of work, length of time as officer, community population, location of work, and gender.

To maintain objectivity, the Council contracted with the Institute of Social and Economic Research (ISER), a research workgroup at the University of Alaska Anchorage. ISER was responsible for all aspects of distribution and data collection for the survey as well as data analysis. ISER prepared this report summarizing survey procedures and results.

The 2022 retention survey for peace and probation officers included 29 trial court judges eligible for retention.

Methodology

State of Alaska peace and probation officers, including state troopers, airport police and fire officers, village public safety officers, and adult and juvenile probation officers, were invited via email to participate in an online survey.

Of the 1,822 officers invited via email to participate, 434 initiated an online survey for a return rate of 23.8%. Of the 434 returned surveys, 189 did not rate any judges; 245 (56.5%) respondents evaluated one or more judges. Table 2 summarizes the demographic characteristics of the respondents.

Table 2
Respondent Characteristics

		All Respondents		Respondents who Rated ≥ 1 Judge	
		<i>n</i>	%	<i>n</i>	%
All respondents		434	100	245	100
Type of Work					
	No response	-	-	-	-
	State law enforcement officer (LEO)	200	46.1	102	41.6
	Municipal/Borough LEO	134	30.9	77	31.4
	Village Public Safety Officer (VPSO)	11	2.5	6	2.4
	Probation/parole officer	69	15.9	51	20.8
	Other	20	4.6	9	3.7
Length of Time as Officer					
	No response	3	0.7	1	0.4
	5 years or fewer	103	23.7	46	18.8
	6 to 10 years	72	16.6	40	16.3
	11 to 15 years	71	16.4	43	17.6
	16 to 20 years	108	24.9	67	27.3
	More than 20 years	77	17.7	48	19.6
Community Population					
	No response	4	0.9	-	-
	Under 2,000	33	7.6	19	7.8
	Between 2,000 and 35,000	192	44.2	113	46.1
	Over 35,000	205	47.2	113	46.1
Location of Work					
	No response	6	1.4	1	0.4
	First District	76	17.5	48	19.6
	Second District	17	3.9	1	0.4
	Third District	268	61.8	149	60.8
	Fourth District	67	15.4	46	18.8
Gender					
	No response	5	1.2	1	0.4
	Male	356	82.0	196	80.0
	Female	69	15.9	45	18.4
	Another identity	4	0.9	3	1.2

Instrumentation

The survey contained the names of the judges eligible for retention, questions about demographic information for each respondent, five evaluation items for each judge, and space for respondents to provide additional comments regarding each judge.

Respondents evaluated judges in five areas of performance. Detailed instructions for each domain were provided:

Impartiality/Fairness: Please evaluate the judge’s sense of basic fairness and justice and whether the judge treats all parties equally.

Integrity: Please evaluate whether the judge’s conduct is free from impropriety or appearance of impropriety and whether the judge makes decisions without regard to possible public criticism.

Judicial Temperament: Please evaluate the judge’s courtesy and freedom from arrogance and whether the judge manifests human understanding and compassion.

Diligence: Please evaluate whether the judge is prepared for court proceedings, works diligently, and is reasonably prompt in making decisions.

Overall Evaluation: Please provide your overall assessment of the judge’s performance.

Respondents assigned ratings for each domain using a five-point Likert scale that ranged from *Poor* (1) to *Excellent* (5). Detailed descriptions of the meaning of each point on the Likert scale were provided:

(1) <i>Poor</i>	(2) <i>Deficient</i>	(3) <i>Acceptable</i>	(4) <i>Good</i>	(5) <i>Excellent</i>
Seldom meets minimum standards of performance for this court	Does not always meet minimum standards of performance for this court	Meets minimum standards of performance for this court	Often exceeds minimum standards of performance for this court	Consistently exceeds minimum standards of performance for this court

Confidentiality and Data Safety

The survey introduction included a statement that reassured respondents of the confidentiality of their responses. Confidentiality is also a paramount concern at ISER and translated into specific procedures related to data security. Because data such as those collected through the judicial retention survey are of a sensitive nature, ISER has rigorous procedures to protect data. Organizational policies and procedures highlight the requirement for confidentiality and ensure that only staff involved with the project have access to the data. All data are maintained on a secure server.

Each potential respondent was provided with a unique URL that could only be used once and only accessed from the e-mail address to which it was sent. Online data were downloaded from the survey website and imported into SPSS for analysis.

Results

Two sets of results are presented in this section of the report. First, respondents’ level of experience with each judge is shown. Then, a summary table presents the ratings and comparisons of the judges. Many of the cross tabulations yield results based on small numbers of respondents. Results based on small numbers of respondents should be regarded with caution and more weight given to the overall results.

In the tables, judges appear in order based on district. Within each district, superior court judges appear first and are followed by district court judges.

Respondents' Level of Experience with Each Judge

All respondents were asked to describe the basis of their evaluation for each judge they rated, with options of direct professional experience, professional reputation, and other personal contacts.

Table 3 shows the type of experience of respondents for each judge.

Ratings of Judges

In the tables that follow, responses to the rating questions are shown in a variety of ways. Most tables show the number of respondents (*n*) and the average rating (*M*). Tables 4-10 present details on the *Overall* item. Table 4 compares all ratings to those from respondents with direct professional experience and includes the median rating (*Mdn*) and the standard deviation (*SD*) in addition to number of respondents and average. Tables 5-10 present data only from those respondents who indicated direct professional experience. Table 5 provides the distribution of responses on the *Overall* item. Table 6 provides judges' mean ratings broken down by respondents' type of work. Table 7 provides judges' mean ratings broken down by respondents' length of time as an Alaskan officer. Table 8 provides judges' mean ratings broken down by the population of the community in which respondents work. Table 9 provides judges' mean ratings broken down by respondents' location of work. Table 10 provides judges' mean ratings broken down by respondents' gender.

For each individual judge, Tables 11-68 provide a demographics summary of respondents and detailed information on ratings provided by respondent characteristic.

Table 3
Level of Experience with Judges

	<i>n</i>	% of all respondents who rated judge	Percent of Respondents Basing Ratings on...
