## *Executive Summary*

This report presents findings from a selection survey conducted among Alaska Bar Association members for one judicial vacancy on the Bethel District Court created by the appointment of Judge William T. Montgomery to the Bethel Superior Court. By the application deadline, the Alaska Judicial Council received a total of four applications from the following individuals (presented in alphabetical order): Joy Anderson, David R. Boyer, Jason Conrad, and Roberta C. Erwin.

The Alaska Judicial Council asked bar members to evaluate applicants on six characteristics: *Professional Competence, Integrity, Fairness, Judicial Temperament, Suitability of this Applicant's Experience for this Vacancy*, and *Overall*. The rating scale ranged from *Poor* (1) to *Excellent* (5).

Table 1 shows the mean ratings for each applicant by respondents with direct professional experience.

**Table 1**  
**Mean Ratings of Applicants**

		Professional Competence	Integrity	Fairness	Judicial Temperament	Suitability of Experience	Overall
	<i>n</i>	<i>M</i>	<i>M</i>	<i>M</i>	<i>M</i>	<i>M</i>	<i>M</i>
<b>Joy Anderson</b>	37	4.5	4.8	4.8	4.8	4.3	4.6
<b>David R. Boyer</b>	37	3.5	4.2	4.1	4.1	3.8	3.9
<b>Jason Conrad</b>	27	2.7	3.2	2.9	2.5	2.4	2.4
<b>Roberta C. Erwin</b>	63	3.8	3.9	3.8	3.7	3.7	3.6

Note: Ratings from only those respondents with direct professional experience with the applicants.

# 2026 Judicial Selection Survey, Bethel District Court

## *Introduction*

The State of Alaska Constitution and laws mandate that the Alaska Judicial Council (Council) evaluate all applicants for a judicial vacancy. The Council nominates the two or more most qualified applicants to the governor who must appoint from the Council's list. As part of the information used to fulfill its mandate, the Council distributed surveys to Alaska Bar Association members and asked them to rate applicants on six characteristics: *Professional Competence*, *Integrity*, *Fairness*, *Judicial Temperament*, *Suitability of this Applicant's Experience for this Vacancy*, and *Overall*. Each survey also contained demographic questions about the respondents, including type of practice, length of Alaska practice, types of cases handled, primary location of practice, and gender.

To maintain objectivity, the Council contracted with the Institute of Social and Economic Research (ISER), a research institute at the University of Alaska Anchorage. ISER was responsible for all aspects of distribution and data collection related to the online version of the survey. ISER prepared this report summarizing survey procedures and results.

A single selection survey was conducted for the following judicial vacancies: Anchorage District Court and Bethel District Court. This report presents the findings of the survey for a vacancy on Bethel District Court, created by the appointment of Judge William T. Montgomery to the Bethel Superior Court. By the application deadline, the Council received a total of four applications from the following individuals (presented in alphabetical order): Joy Anderson, David R. Boyer, Jason Conrad, and Roberta C. Erwin.

## *Methodology*

All active in-state members of the Alaska Bar Association were invited to participate in this selection survey. Inactive and retired members and active out-of-state members were also invited to participate in the survey if the Council had email addresses for them. Of the 3,812 individuals invited to participate, all individuals received only an email invitation to complete the survey online. No individuals received a paper version of the survey.

Respondents initiated 670 online surveys. No surveys were excluded because the respondent answered "No" to the question certifying that they had complied with the ethical standards set out in Professional Rule 8.2; four surveys were excluded because the respondents did not progress far enough in the survey to reach the certification question; one survey was excluded because the respondent did not answer any other questions but the certification question. Therefore, 665 online surveys qualified for analysis.

The final analysis included 665 online surveys for a survey return rate of 17.4%. Of the 665 returned surveys, 271 (40.8%) did not rate any of the 14 applicants (ten Anchorage District Court applicants and four Bethel District Court applicants); 394 (59.2%) respondents evaluated one or more applicants. Table 2 summarizes the demographic characteristics of the respondents.

**Table 2**  
**Respondent Characteristics**

		All Respondents		Respondents who Rated $\geq 1$ Applicant	
		<i>n</i>	%	<i>n</i>	%
<b>All respondents</b>		<b>665</b>	<b>100</b>	<b>394</b>	<b>59.2</b>
<b>Type of Practice</b>

	Civil	341	51.3	175	44.4
	Other	50	7.5	20	5.1
<b>Location of Practice</b>					
	No response	6	0.9	4	1.0
	First District	71	10.7	24	6.1
	Second District	13	2.0	9	2.3
	Third District	478	71.9	312	79.2
	Fourth District	71	10.7	38	9.6
	Outside Alaska	26	3.9	7	1.8
<b>Gender</b>					
	No response	9	1.4	4	1.0
	Male	362	54.4	199	50.5
	Female	292	43.9	190	48.2
	Another identity	2	0.3	1	0.3

## ***Instrumentation***

The survey contained the names of the applicants for the vacancy, questions about demographic information for each respondent, six evaluation items for each applicant, and space for respondents to provide additional comments regarding each applicant.

Both versions of the survey required a certification by the respondent that they had rated the applicants as required by the bar's Professional Rule 8.2. Specific instructions regarding the certification were provided:

*“Please refer to Professional Conduct Rule 8.2 concerning your obligation to provide truthful and candid opinions on the qualifications or integrity of these applicants.”*

Respondents evaluated applicants in six areas of performance included in the survey using a five-point Likert scale that ranged from *Poor* (1) to *Excellent* (5). Detailed descriptions of the meaning of each point on the Likert scale were provided for each of the performance areas. The scale and instructions for respondents were:

*“Please rate the applicant on each of the following qualities by selecting the number that best represents your evaluation. Applicants should be evaluated on each quality separately. Use the ends of the scales as well as the middle. The tendency to rate an applicant “excellent” or “poor” on every trait should be avoided since each person has strengths and weaknesses. If you cannot rate the applicant on any one quality, leave that one blank.”*

	(1) <i>Poor</i>	(2) <i>Deficient</i>	(3) <i>Acceptable</i>	(4) <i>Good</i>	(5) <i>Excellent</i>
<b><i>Professional Competence</i></b>	Lacking in knowledge and/or effectiveness	Below-average performance occasionally	Possesses sufficient knowledge and required skills	Usually knowledgeable and effective	Meets the highest standards for knowledge and effectiveness
<b><i>Integrity</i></b>	Unconcerned with propriety and/or appearance, or acts in violation of codes of professional conduct	Appears lacking in knowledge of professional codes of conduct and/or unconcerned with propriety or appearance at times	Follows codes of professional conduct, respects propriety and appearance of propriety at all times	Above-average awareness of ethics, holds self to higher standard than most	Outstanding integrity and highest standards of conduct
<b><i>Fairness</i></b>	Often shows strong bias for or against some person or groups	Displays, verbally or otherwise, some bias for or against groups or persons	Free of substantial bias or prejudice against groups or persons	Above-average ability to treat all persons and groups impartially	Unusually fair and impartial to all groups
<b><i>Judicial Temperament</i></b>	Often lacks compassion, humility, or courtesy	Sometimes lacks compassion, humility, or courtesy	Possesses appropriate compassion, humility, and courtesy	Above-average compassion, humility, and courtesy	Outstanding compassion, humility, and courtesy
<b><i>Suitability of Experience</i></b>	Has little or no suitable experience	Has less than suitable experience	Has suitable experience	Has highly suitable experience	Has the most suitable experience for this position
<b><i>Overall Rating</i></b>	Has few qualifications for this position	Has insufficient qualifications for this position	Has suitable qualifications for this position	Has highly suitable qualifications for this position	Has exceptionally high qualifications for this position

## ***Confidentiality and Data Safety***

The survey introduction included a statement that reassured respondents of the confidentiality of their responses. Confidentiality is also a paramount concern at ISER and translated into specific procedures related to data security. Because data such as those collected through the judicial selection survey are of a sensitive nature, ISER has rigorous procedures to protect data. Data are kept locked at all times except when being used for data entry or related purposes. Organizational policies and procedures highlight the requirement for confidentiality and ensure that only staff involved with the project have access to the data. Online data are maintained on a secure server.

## ***Assurance of Non-Duplicate Responding***

To ensure that as few duplicates or invalid surveys as possible were received, clear instructions were provided to potential survey respondents regarding how to handle the survey.

For the online data collection, each potential respondent was provided with a unique URL that could only be used once. ISER analyzed frequencies of the unique identifier variable to identify any duplicate responses. Five duplicate surveys were identified. Of the duplicates, the most complete survey data was retained and the duplicate removed, ensuring that only one survey per respondent was used in the data analysis.

## ***Data Management***

With the goal of virtually error-free data handling, ISER implemented rigorous data entry procedures to ensure the accuracy of data entry.

## ***Results***

Two sets of results are presented in this section of the report. First, respondents' level of experience with each applicant rated is shown. Then, a summary table presents the ratings and comparisons of the applicants. Many of the cross tabulations yield results based on small numbers of respondents. Results based on small numbers of respondents should be regarded with caution and more weight given to the overall results.

### ***Respondents' Level of Experience with Each Applicant***

All respondents were asked to describe the basis of their evaluation for each applicant they rated, with options of direct professional experience, professional reputation, and other personal contacts.

Table 3 shows the type of experience of respondents for each applicant.

### ***Ratings of Applicants***

In the tables that follow, responses to the rating questions are shown in a variety of ways. Most tables show the number of respondents (*n*) and the average rating (*M*). Tables 4-10 present details on the *Overall* item. Table 4 compares all applicants to those with direct professional experience and includes the median rating (*Mdn*) and the standard deviation (*SD*) in addition to number of respondents and average. Tables 5-10 present data only from those respondents who indicated direct professional experience. Table 5 provides the distribution of responses. Table 6 provides applicants' mean ratings broken down by respondents' type of practice. Table 7 provides applicants' mean ratings broken down by respondents' length of Alaska practice. Table 8 provides applicants' mean ratings broken down by respondents' type of caseload handled. Table 9 provides applicants' mean ratings broken down by respondents' location of practice. Table 10 provides applicants' mean ratings broken down by respondents' gender.

For each individual applicant, Tables 11-18 provide a demographics summary of respondents and detailed information on ratings provided by respondent characteristic.
